tender process;

Artist impression of TSRC viaduct

Scope of Services

Project Overview

The Toowoomba Second Range Crossing is a \$1.6Bn Tollroad procured by the QLD Government as a PPP Project to finance, build and operated the asset for 25 years. Nexus Infrastructure achieved Financial Close in August 2015 and is currently implementing the project. ASLAT advised the commercial manager during the tender process.

Commercial Advisory

ASLAT advised the D&C contractor during the tender process in relation to all commercial aspects of the projects:

- Review, assessment and commercial negotiations of upstream (SPV) and side contracts (O&M) including the Project Deed, D&C Subcontract, Interface Agreement, Independent Reviewer Deed of Appointment, D&C Direct Deed, and several ancillary contracts;
- Development and negotiation of Completion Matrix, key interface agreement between D&C and O&M Contractors;
- Engaged with insurance brokers with respect of insurance due diligence, risk assessment and gap analysis; and
- Review of project specifications and liaison with technical team to identify and formulate the bid technical departures.
